

## KESSLER COFFEE TABLE

The sophisticated yet simple profile of the Kessler coffee table gives it an elegant contour, perfect for luxurious living spaces. Designed by Italian designer M. Lipparini, the Kessler is a series of tables, differing in materiality and size. The array of sizes enables the Kessler to work in all interior areas. Available in a metal base finished in satined or gun metal, the strong base is complimented by three top options in wood, glass or marble.
